

MAINE
DEPARTMENT OF EDUCATION

The federal *No Child Left Behind Act of 2001 (NCLB)* requires all states, school districts, and schools to provide annual report cards to parents and communities that include Maine Comprehensive Assessment System (MeCAS) data disaggregated into subgroups, attendance and graduation rates, status of adequate yearly progress (AYP), and information on “highly qualified” teachers. This Report Card also displays statewide academic achievement results in grades four and eight on the National Assessment of Educational Progress (NAEP) reading and mathematics assessments, as well as the participation rates for students with disabilities and limited English proficiency on the exam. Maine’s NCLB Report Cards contain the following information:

MeCAS Assessment Data 2008–2009: Assessment data for reading and mathematics are provided for Grades 3–8 and high school. Data is disaggregated to explain performance by subgroups. The MeCAS data is from the tests given in the spring of 2009.

Adequate Yearly Progress (AYP): Accountability information is provided for how well districts and schools are progressing toward all students being proficient in reading and mathematics. This system has been established to comply with the accountability provisions of No Child Left Behind, which require, among other things, that each school makes “Adequate Yearly Progress” (AYP) toward meeting a national goal of all students being “proficient” in reading and mathematics by the school year 2013–2014.

Qualifications of Teachers: Information about the qualifications of teachers is provided for three areas: 1) the professional qualifications of teachers; 2) the percentage of teachers with emergency or conditional certificates; and 3) the percentage of classes not taught by teachers who are highly qualified in core academic areas such as mathematics, science, social studies, etc. This data is intended to help you understand the backgrounds and preparation of the teachers who are working with your child.

National Assessment of Educational Progress (NAEP): Data from the 2006–2007 NAEP results is displayed, allowing you to evaluate the performance of students in Maine with the performance of students across the nation or in other states. Students take the NAEP in reading and mathematics every two years. When reviewing these results, it is important to keep in mind that the NAEP results are based on a sample of schools and students across Maine, not all Maine schools and students.

This NCLB Report Card details how Maine districts and schools are meeting the requirements of the federal NCLB legislation. More information about NCLB can be found at www.maine.gov/education/nclb/index.html or by contacting the NCLB Clearinghouse at 624-6705.

MAINE SCHOOL ADMINISTRATIVE DISTRICT #11

DISTRICT REPORT CARD

No Child Left Behind Act

BACKGROUND INFORMATION

The federal No Child Left Behind Act of 2001 (NCLB) requires all districts to provide a report card about students' achievement on State testing. This "report card" must include reading and math data for the district and individual schools at grades 3-8 on the Maine Educational Assessment (MEA) and high school on the Scholastic Aptitude Test (SAT) supplemented with extra Maine math questions. Schools are expected to show "Adequate Yearly Progress" (AYP) toward meeting yearly targets.

HOW DO YOU "MAKE AYP?"

The two ways to "Make AYP" are either meeting the percentage target or meeting the growth target in the following categories: whole school; economically disadvantaged; and in special education. During the three school years from 2007-2009, Helen Thompson Elementary School, Teresa C. Hamlin Elementary School, Pittston Consolidated School, Laura E. Richards School, River View Elementary School, Gardiner Regional Middle School, and Gardiner Area High School made adequately yearly progress one or more times.

Continued Improvement in MSAD #11

Student Achievement continues to grow at all levels

Between 2006-2009, MSAD #11 students improved their performance in both reading and math at all levels. Consistent growth over time is a credit to the hard working staff in MSAD #11. In the last three years, the percentage of students proficient in reading increased from 52% to 60% at the elementary level (grades 3-5); 48% to 55% at the middle level (grades 6-8); and 34% to 48% at high school (grade 11). The percentage of students proficient in math increased from 48% to 55% at elementary; 43% to 55% at the middle level; and 19% to 36% at the high school level.

NECAP

New England Common Assessment Program

The NECAP was given to students in Grades 3-8 on October 1st, 2009. This replaces the MEA. Results from this test will come out in February.

There is comprehensive historical information here about ongoing Curriculum Work, Assessment and school improvement. Please visit and subscribe!

www.msad11.org/curriculum

ADEQUATE YEARLY PROGRESS TARGETS

The following are AYP targets identifying the percentage of students who must be proficient on State testing. By 2014, all students need to be proficient in reading and math. The growth target for AYP requires that a 10% increase in the number of students proficient as compared to last year in all categories.

YEAR	GRADES 3-8 READING	GRADES 3-8 MATH	GRADE 11 READING	GRADE 11 MATH
2007	50%	40%	50%	20%
2008	50%	40%	57%	31%
2009	58%	50%	64%	43%
2010	66%	60%	71%	54%
2011	75%	70%	78%	66%
2012	83%	80%	86%	77%
2013	92%	90%	93%	89%
2014	100%	100%	100%	100%

MSAD #11 Student Achievement Information

Percentage of Students Proficient in Math

Percentage of Students Proficient in Reading

The above charts show the percentage of students who are proficient as compared to the targets set by the No Child Left Behind act.

Average Scaled Score for Reading Grades 3-5

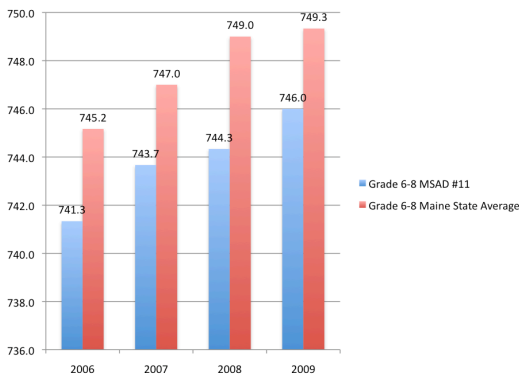

The charts to the left and the right compare MSAD #11 average scale score to the Maine State average scale score in the three grade spans 3-5, 6-8, and grade 11 for math and reading.

Average Scaled Score for Math Grades 3-5

Average Scaled Score for Reading Grades 6-8

All charts indicate incremental growth for MSAD #11 student achievement on state tests.

Average Scaled Score for Math Grades 6-8

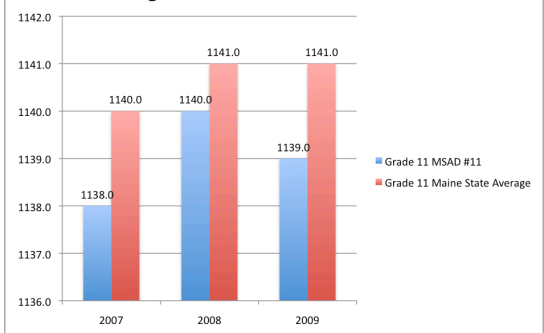

Average Scaled Score for Reading Grade 11

Educators in MSAD #11 continue to work to improve instructional practices in order to provide the best education possible.

Average Scaled Score for Math Grade 11

AYP STATUS OF MAINE SCHOOLS AS COMPARED TO MSAD 11 SCHOOLS

Of Maine's 635 public schools,

- 380 are "making AYP," which means students at all tested levels are meeting the annual targets in both math and reading; Helen Thompson Elementary School, Pittston Consolidated School, and Teresa C. Hamlin School fall into this category.
- 113 schools are in "monitor" status, meaning they were "making AYP" in 2008-09, but did not meet targets in at least one subject in the 2008-09 testing. If these schools meet targets in the current year, they will go back to "making AYP" status; Laura E. Richards School, River View Elementary School, and Gardiner Area High School fall into this category.
- 102 schools are in "Continuous Improvement Priority Schools" (CIPS) status; this means that they have not met targets for at least two years in a row; this group includes schools that have been in CIPS status for one to six years, including 36 schools that entered CIPS status for the first time; None of the MSAD 11 schools fall into this category.
- 30 schools are in "CIPS on hold" status, meaning they are poised to come off the CIPS list; these are schools that were in CIPS status last year and met all their targets this year; if they meet the targets again next year, their status will be "making AYP;" Gardiner Regional Middle School falls into this category.
- There are 10 schools whose AYP status is pending while the Department seeks and reviews additional data; None of the MSAD 11 schools fall into this category.

MSAD #11 School Goals *in brief*

Pittston Consolidated School

Goal: To focus on High Quality Instruction that promotes high student academic achievement.

Action Steps: Continue the collaborative teaching approach to additional group levels. Analyze MEA's, NWEA's, and NECAP's to look for student strengths and weaknesses. Provide explicit and differentiated instruction for students striving to meet the standards. Provide additional explicit and differentiated instruction for students struggling to meet the standards through weekly Academic Tutorial. Teach test taking strategies by using a variety of resources. Continue weekly Professional Learning Community meetings to review student work in order to drive instruction. Involve students in the review of their work and assessments. Continue to expand daily physical activity programs (SPARK, Take Time, Brain Gym). Use the Response to Intervention process to identify and support struggling students.

Teresa C. Hamlin School

Goal: To develop the skills to review and interpret data in Professional Learning Communities to drive classroom instruction and/or remediation.

Action Steps: We will be using tutorial time, curriculum supplements and we will be studying data in our Professional Learning Communities to help us identify students who need remediation.

Laura E. Richards Elementary School

The staff at Laura E. Richards School are focusing on creating a safe community that is literacy rich. Specifically, the staff is working to provide exemplary interventions to help all students become proficient.

Action Steps: Create a pamphlet of grade level readiness info out to the community. Use research-based programs that target student needs. Have Better communication with staff about student needs/progress.

River View Elementary School

Goal: To use high quality instruction to increase student proficiency in the content areas of Mathematics and Reading.

Action Steps: Use weekly grade level team meetings to review student data collected from the NECAP, MEA, NWEA, and classroom assessment to identify grade level trends, as well as, individual student needs. In grade level teams use collected data to discuss curriculum alignment. Teams will set short term goals to monitor progress and provide feedback on student performance levels. Teachers provide opportunities for students to practice test taking strategies: (i.e. Multiple choice, constructed Response) and also use released test items from the NECAP. In grade level teams, teachers use collected data to brainstorm interventions for small groups and individual students delivered through Academic will meet or exceed the standard.

Helen Thompson Elementary School

Goal: To continue to focus on improving the reading skills and, subsequently, the reading assessment scores of all students.

Action Steps: The staff will use data gained through the NECAP, NWEA, DRA and 3-minute assessments to guide instruction. Academic tutorials will be used for individual and small group work. Appropriate referrals will be used to help struggling students. Review of data throughout the year will guide our instruction and interventions while review of data at the end of the year will show if grade levels and the school as a whole reached our goals.

Gardiner Area High School

Goal: The three priority recommendations from the Academic Audit and the recommendations that will come from the Accreditation visit will be the focus at the high school. The staff will continue to evaluate current programs and practices, address areas in need of improvement, and expand areas of success.

Action Steps: Continuation of bi-weekly academic checkpoints with mailings or emails to parents. Continued development/implementation/refinement of common curricula in all courses in all content areas. Continued development/implementation/refinement of common assessments in all courses in all content areas. Continuation of Common Planning Time for all teachers in all content areas. Piloting a tool to gather feedback from students about units of instruction in all content areas. Further incorporate relevance and application into the curriculum, instruction, and assessment.

Gardiner Regional Middle School

Goal: Create time and support for a Professional Learning Community Model, improve student performance, and improve school culture.

Action Steps: Weekly Collaborative Meetings involving meeting minutes, staff sharing, teaching methodology, inter-disciplinary units, increased grade level consistency, curriculum mapping and refinement, and work towards teacher's collaborative goal. Maintain and continue to improve the "After School" Tutorial Program and create a Learning Lab Tutorial Program within the school day. The School Improvement Committee will be focused on increased staff team building, developing workshops and utilizing staff specialties and expanding and developing a peer coaching/peer sharing model.
